Dear Mr. Burke,

Being a Factory Authorized paint and collision center for Mercedes Benz, Bmw, and Audi of America, I certainly understand the need for this product seeing many automobiles in our company's history of the past 80 plus years.

I just wish it were I who had the idea. If this product Post guard were available 30 or 40 years ago it would have saved Insurance companies and the private sector many millions of dollars. And with car repairs going up and cars getting more difficult to repair I can only see this product being of great value to the public and it's safety.

Respectfully yours

Paul R. Sgro
President
